

PARENTS

Children between the ages of 4 - 5 years with developmental disabilities are invited to participate in a research project to study speech, language and reading development

We are currently recruiting children who:

- have a developmental disability
 - are between 4 years - 5 years, 11 months of age
 - May or may not use speech to communicate
 - are able to use their hand to activate a computer touch screen
 - Have English as their primary language at home
- Your participation will take 2 - 2 $\frac{1}{2}$ hours over two to three visits at Georgia State University's Communication Across the Lifespan Laboratory.
 - Your child will be given formal and informal developmental, speech, language, and reading assessments.
 - You will be asked to fill out a demographic form and questionnaire about your child's home and school reading experiences.

Your child will be provided a book for their participation.
If you would like more information on how you can participate, please contact:
